

Libby Hawkins

Stage Director and Theatre Artist

Great theatre should spur audiences to ask questions about the world around them. My work seeks to create a space in which the exploration and upending of social norms, power dynamics, and femininity sparks curiosity about the status quo.

Meaningful approaches to text, devising, and movement are foundations of my directing practice, yielding productions that are evocative, passionate, and layered. Collaborative directing methods encourage theatre artists to take authentic ownership of the story as we move through rehearsals and productions together.
